Storyline

The film begins with a pair of floating disembodied lips welcoming the audience to a science fiction double feature. Throughout the film, a criminologist from an unspecified point in the future narrates and provides commentary on the events.

Following the wedding of their friends, a naïve young couple, Brad Majors and Janet Weiss, get engaged and decide to celebrate with their high school science teacher Dr. Scott, who taught the class where they first met. En route to Scott's house on a dark and rainy night, they get lost with a flat tire. Seeking a telephone to call for help, the couple walk to a nearby castle where a party is being held. They are accepted in by the strangely dressed inhabitants, led by the butler Riff Raff, the maid Magenta, and a groupie named Columbia, who dance to "The Time Warp". Despite feeling apprehensive, they stay to meet the owner of the castle, Dr. Frank-N-Furter. He invites them to stay for the night.

With the help of Riff Raff, Frank brings to life a tall, muscular, handsome blond man named Rocky. As Frank vows he can improve Rocky into an ideal man in a week, a delivery boy named Eddie (half of whose brain Frank had used in the creation of Rocky) breaks out of a deep freeze riding a motorcycle. Frank kills Eddie with an ice axe, justifying it as a "mercy killing". Rocky and Frank depart for the bridal suite.

Brad and Janet are shown to separate bedrooms, where each is visited and seduced by Frank. Meanwhile, Riff Raff and his sister Magenta torment Rocky. Janet, upset and emotional, sees Brad smoking a cigarette in bed with Frank on a video monitor. She then discovers Rocky, cowering in his birth tank. While tending to his wounds, Janet seduces Rocky as Magenta and Columbia watch from their bedroom monitor.

Dr. Scott, now an investigator of UFOs for the government, arrives at the castle in search of his nephew Eddie, unaware of Brad and Janet's presence. Everyone discovers Janet and Rocky together, enraging Frank. At this point, Magenta summons everyone to an uncomfortable dinner, which they soon realize has been prepared from Eddie's mutilated remains. Columbia, Eddie's lover, flees from the room in tears. Janet runs screaming into Rocky's arms, provoking Frank to chase her through the halls to the lab.

Frank uses his Medusa Transducer to turn Dr. Scott, Brad, Janet, Rocky, and Columbia into nude statues. After dressing them in cabaret costumes, Frank "unfreezes" them, and they perform a live cabaret floor show, complete with an RKO tower and a swimming pool, with Frank as the leader. Riff Raff and Magenta interrupt the performance to declare mutiny; they disapprove of Frank's extreme lifestyle and are ready to return to Transylvania. Frank makes an impassioned plea to return with them, but Riff Raff kills him, as well as Columbia and Rocky. Riff Raff warns Brad, Janet, and Dr. Scott to leave immediately; the castle lifts off into space. The injured survivors are then left crawling in the smog and dirt and the criminologist concludes that the human race is equivalent to insects crawling on the planet's surface: "lost in time, and lost in space... and meaning".
