Storyline

The Christmas Angel: A Family Story is a 1998 Christmas album by the band Mannheim Steamroller, their fifth Christmas album. The soundtrack, accompanied by the narration of Chip Davis and Olivia Newton-John, tells the story of a decorative angel that is stolen from the top of a Christmas tree by a villain called the Gargon. The toys under the tree will not become presents until the angel is found. With the toys' help, a young mother defeats the Gargon and Christmas is saved. The script was written by Mark Valenti.

The story was then turned into a figure skating production titled The Christmas Angel: A Story on Ice, starring Dorothy Hamill as the mother, Daniel Cloonan as the son, Elvis Stojko as the Gargon, and Tonia Kwiatkowski in the title role of the Angel.

Quick Storyline/Review: This original story will most likely never become legendary like Rudolph or Frosty. However, it is reminiscent of times when families used to venture out to see theatre performed at the city square. This heart-warming story is beautifully performed by Dorothy Hamill and other talented skaters. Chip Davis, of Mannheim Steamroller, and Olivia Newton-John narrate the story. Finally, the music of Mannheim Steamroller provides excitement and helps to set the mood of each scene. If you and your family enjoy Mannheim Steamroller or Disney on ice, then you won't be disappointed adding this to your holiday enjoyment. Curl up with your family and some hot chocolate and spend an evening together. IMDb
